Individual Club Pricing		
Driver (Tour Tech Graphite Shaft)	#3 Wood (Tour Tech Graphite Shaft)	#3 Hybrid (Tour Tech Graphite Shaft)
For alternative shaft pricing, call for quote		

Specifications:

- 460cc titanium driver
- Composite top lowers center of gravity for increased launch angle
- Discretionary weight transferred to heel and toe for added stability through impact
- Square shape increases MOI
- #3 wood and #3 hybrid designed with same shape and profile as driver, providing longer and straighter shots
- Custom shaft options available

To order, contact your local pro shop or golf retailer.

Head Covers Included

Set Configuration	
Driver	12° - graphite shaft
Woods	#5(19°), #7(23°) - graphite shafts
Hybrids	#5(27°), #6(30°), #7(33°) - graphite shafts
Irons	8, 9, PW, SW - graphite shafts
Putter	High MOI putter with Milled polymer face

Specifications:

- The Women's & Senior's Sequence sets feature a graduated MOI head design that changes throughout the set, which ensures that each club provides maximum forgiveness and playability
- 460cc forged Titanium driver with graphite shaft
- Hyper stainless steel fairway woods with graphite shafts
- Stainless steel hybrid irons (5-7) with graphite shafts
- Stainless steel two piece hollow back irons (8-9) with graphite shafts
- Stainless steel undercut irons (PW-SW) with graphite shafts
- Entire set swing weighted to C7 for women, D1-D2 for seniors
- VelveTac rubber grips
- Includes six premium headcovers
- Available in women's right and left hand and senior's right hand

Head Covers Included

Set Configuration	
Driver	10.5° - graphite shaft
Woods	#5(19°) - graphite shaft
Hybrids	#3(21°), #4(24°), #5(27°) - steel shafts
Irons	6, 7, 8, 9, PW, SW - steel shafts
Putter	High MOI putter with milled polymer insert

Elastomeric Vibration Control coating on Sequence iron cavities reduces vibration by 33%.

Specifications:

- The Men's Sequence set features a graduated MOI head design that changes throughout the set, which ensures that each club provides maximum forgiveness and playability
- 460cc forged Titanium driver with graphite shaft
- Hyper stainless steel fairway woods with graphite shafts
- Stainless steel hybrid irons (3-5) with True Temper shafts
- Stainless steel two piece hollow back irons (6-8) with True Temper shafts
- Stainless steel undercut irons (9-SW) with True Temper shafts for maximum forgiveness and control
- Entire set is swing weighted
- Includes 5 premium headcovers
- Available in men's right and left hand

To order, contact your local pro shop or golf retailer.

Comes with matching head covers

Available in Men's and Women's Left Hand Only.

ZXT
"The ultimate combination of performance and value"

Women's 9 piece set	
Driver	12° - graphite shaft
Woods	Fairway Wood(19°) - graphite shaft
Hybrids	#5(27°), #6(30°) - graphite shafts
Irons	7, 8, 9, PW, SW - graphite shafts

Men's 10 piece set	
Driver	10.5° - graphite shaft
Woods	#3(15°), #5(19°) - graphite shafts
Hybrids	#4(24°), #5(27°) - steel shafts
Irons	6, 7, 8, 9, PW - steel shafts

Specifications:

WOODS

- 450cc forged Ti 7075 driver with light weight graphite shaft
- ZXT sole design optimizes weight distribution for maximum playability
- Forged fairway woods designed to generate a longer, more penetrating ball flight

HYBRIDS

- Perfect for golfers who struggle with long irons
- Offset hosel makes the club easy to square at impact
- AMF Kinotech steel shaft designed by True Temper optimizes shaft flex and energy transfer for greater accuracy and distance

IRONS

- Stainless steel heads with large notched cavity for a stable, solid feel
- Deep undercut channel allows maximum weight distribution
- Progressive offset makes it easier to square the club face at impact

Sequence hybrid trajectory
Traditional club trajectory

Includes head cover

Fitted with a lightweight Sequence graphite shaft with graduated flex and kick point to optimize the launch, distance and trajectory of each individual club.

Left hand available in Men's #3 & #4 only

MEN'S SEQUENCE HYBRIDS

Model	Shaft	Flex	Loft	Lie	Length
Hybrid #3	Ultra Lightweight Graphite	Medium Firm	21°	59.5°	39.5"
Hybrid #4	Ultra Lightweight Graphite	Medium Firm	24°	60°	39"
Hybrid #5 (RH Only)	Ultra Lightweight Graphite	Medium Firm	27°	61°	38.5"
Hybrid #6 (RH Only)	Ultra Lightweight Graphite	Medium Firm	30°	61.5°	38"

LADIES SEQUENCE HYBRIDS

Model	Shaft	Flex	Loft	Lie	Length
Hybrid #4 (RH Only)	Ultra Lightweight Graphite	L	24°	60°	38"
Hybrid #5 (RH Only)	Ultra Lightweight Graphite	L	27°	61°	37.5"
Hybrid #6 (RH Only)	Ultra Lightweight Graphite	L	30°	62°	37"
Hybrid #7 (RH Only)	Ultra Lightweight Graphite	L	33°	62°	36.5"

Specifications:

- Responsive hyper stainless steel hollow body design for maximum forgiveness
- Step-muscle crown maximizes structural integrity while minimizing crown weight. This allows for more mass to be moved to the rear and sole of the golf club, increasing stability, while maximizing forgiveness.
- Deep and low CG sole promotes a quicker launch and more controlled ball flight, increasing distance and trajectory on any shot. V-Step sole allows the club to pass cleanly through the rough
- SpinControl face technology optimizes spin rate and control
- Progressive offset makes it easier to square the clubface at impact for straighter, more consistent shots
- AMF VelveTac grip combines the ultimate combination of comfort and control

To order, contact your local pro shop or golf retailer.

Includes head cover

Includes head cover,
wrench and weights

MEN'S STRIKER HYBRIDS

Model	Shaft	Flex	Loft	Lie	Length
Hybrid #3	True Temper Steel	R or S	21°	60.5°	40"
Hybrid #4	True Temper Steel	R or S	24°	61°	39"

FEATURES

- The only 3 dimensional alignment putter in golf.
- The Insight 3-D putter uses simple circular and plane geometry to promote perfect, consistent putting alignment in 3 ways.
 - It promotes proper head position with the eyes directly above the ball.
 - It easily aligns the putter to the target.
 - It signals unnecessary lofting or delofting of the putter.
- The alignment ball, located in the bottom level of the putter, is bisected by the putter center line and is visible through the top hole of the putter.
- The ball comes fully into view when your eyes are directly over the putter and when the putter is perfectly aligned to the target
- When your eyes are directly over the ball, the alignment aid also indicates whether you are lined to the target, preventing opening and closing of the putter head, and signals whether you are lofting or delofting the putter by either forward pressing or keeping your hands behind the putter head.
- Aircraft aluminum head with milled face and polymer insert for a responsive feel and true roll.
- Innovative head design optimizes MOI providing maximum forgiveness on mis-hits.
- Triple bend shaft for a clear view of the ball and face balanced for greater stability.

Available in right and left hand

The Insight 3-D putter easily identifies the most common alignment flaws.

Perfectly aligned

FEATURES

- Twin Metal Momentum System™ has four interchangeable brass and aluminum weights which allow the golfer to change the total head weight from 350g to 437g to adjust to various green speeds or personal preference. Anodized aluminum weights weigh 24g. Brass weights weigh 77g. Set screws weigh 10g.
- AlignMass™ interchangeable weight rails run parallel to target line for easy alignment. Weight positioning also allows the golfer to change weighting to toe bias by using the anodized aluminum weight towards the heel and brass weight near the toe. Conversely, the putter can be heel weighted by placing the brass weight towards the heel and the anodized aluminum weight towards the toe. Each bias can be maximized by using only one weight in the desired position. By changing the bias of the putter, the golfer can customize the head to keep it square at impact based on their individual putting stroke.
- Flying buttress head design allows weight to be positioned away from the face to maximize Moment of Inertia. The result is maximum forgiveness on off-center putts, which increases accuracy and roll.
- Dual steel-polymer face provides the ultimate combination of accuracy, feel and distance control.
- Triple bend shaft for a clear view of the ball and face balanced for greater stability.

Available in right and left hand

Includes: head cover, wrench and 2 sets of weights

Includes: head cover, wrench and 3 weights

FEATURES

- VMC Putter features the patented Variable Mass Cavity Design in a responsive stainless steel head.
- Three interchangeable brass weight cartridges (40g, 58g, 76g) allow the player to adjust the head weight from 360g to 378g, or 396g to instantly adjust feel for various green speeds and personal preference.
- Rear weighting promotes a consistent true roll.
- Center shafted and face balanced for greater stability.
- Parallel sight lines make it easy to align and keep the putter square.
- Dual aluminum-polymer face provides the ultimate combination of accuracy, feel, and distance control.

“Classic Blade Design”

Length	Loft	Lie
34"-35"	3.5°	71°

Available in right and left hand

Includes: head cover, wrench and 3 weights

FEATURES

- Each design within the B-Series putters features a deep center of gravity and a high moment of inertia (resistance to twisting) that results in straighter, more consistent putts
- Face balanced for greater stability
- Milled face with polymer insert for soft, yet responsive feel
- Triple bend shaft for a clear view of the ball

Centered sight lines make it easy to align and keep the putter square
 Textured wrap grip inspires confidence
 Available in RH only
